

SAE MOBILUS™

WELCOME TO THE TECHNICAL RESOURCE PLATFORM
TRUSTED BY 40,000+ MOBILITY ENGINEERING PROFESSIONALS

The SAE MOBILUS technical resource platform is your critical advantage to developing the future of mobility engineering. Increase productivity and sharpen your organization's competitive edge with reliable, instant access to 226,000+ of the latest innovations, trends and standards.

3 Easy Steps to Access Your Customizable Dashboard

1 LOG IN TO YOUR SUBSCRIPTION

2 LOG IN TO YOUR DASHBOARD

After logging in to your subscription, select the "DASHBOARD" tab and enter your existing MY SAE username and password or select "Register/Sign Up" to create a free account.

3 CUSTOMIZE YOUR DASHBOARD

Recent Activity: See a list of your recent keyword searches conducted on the SAE MOBILUS platform. Hyperlinks of the keyword searches are available to instantly launch search results.

Annotations: View and annotate Technical Papers from the summary and detail page. Annotations will be automatically saved to the "Annotations" folder.

Favorites: Tag documents as "Favorites" and save in your personal folder. Adjust notification settings to receive email notifications regarding revisions to standards.

Saved Searches: Save routine queries to the "Saved Searches" section of the Dashboard.

Contact Your Administrator to Learn More About SAE MOBILUS:

TAKE ADVANTAGE OF USER-FRIENDLY FEATURES

Dynamic Standards Red-lining
Eliminates manual version comparison

2D/3D Graphic Parts Configurator
Exports aerospace parts parameters to CAD formats

In-Platform Annotation
Lets users make personal notes and comments

Knowledge Hubs
Provide deep exploration of emerging topics, including cybersecurity, powertrain and advanced manufacturing
